

EMBARGO ORDERS SENT TO BORDER

Official Instructions Given to Withhold Arms From Enemies of Carranza.

Washington, D. C., Oct. 21.—Orders were forth from the treasury department today to customs officials all along the Mexican border and at all points of the United States not to permit shipments of arms and munitions to Mexico except to the faction represented by Gen. Venustiano Carranza.

This step is in accordance with the embargo proclamation issued by president Wilson. The state, war and justice departments will cooperate in its enforcement.

An order issued by the president, supplementing the proclamation, specifically excepts from the prohibition the shipment of war munitions to the recognized de facto government of which Gen. Carranza is chief. The exception modifies that proclamation so that it practically applies only to the border states of Chihuahua, Sonora and Lower California.

AMERICAN BATTLESHIPS SALUTE MEXICAN FLAG

Veracruz, Mex., Oct. 22.—American battleships here, receiving word of the recognition of the de facto government Wednesday evening, raised the Mexican flag and fired a salute of 21 guns. The gunboat Zaragoza immediately responded by raising the American flag and saluting. There was an all day celebration in the city.

AMERICANS HELD FOR BIG RANSOM

Unconfirmed Reports Say Americans and Mexicans Fight Battle.

It was reported in El Paso Thursday afternoon that \$10,000 ransom had been demanded for several Americans, employees of the Paloma Land & Cattle Company, captured by a band of Mexicans near the border opposite Columbus, N. M. A representative of the company left for Hachita this afternoon to look into the matter, but denying the truth of the reports of ransom money.

The reports in El Paso declared that some shooting ensued in the attempt to capture the men, who had just rushed 1980 head across the line into New Mexico, and unconfirmed accounts of dead and wounded were in circulation on the street.

De la Rosa is Suspected.

The early morning attack again centered attention on actions of Luis de la Rosa, the Mexican bandit who led Monday night's train robbery. West Wednesday evening raised the Mexican flag and fired a salute of 21 guns. The gunboat Zaragoza immediately responded by raising the American flag and saluting. There was an all day celebration in the city.

CARRANZA GETS \$10,000,000

New Orleans Bankers Close Contracts to Furnish the Mexican Chief Gold.

New Orleans, La., Oct. 21.—Gen. Carranza's newly recognized government in Mexico is to be materially aided by a loan of \$10,000,000, contracts for which were closed Wednesday by New Orleans bankers, it is announced. It is announced that arrangements have been made with the Mexican and Campeche sugar growers, through Gen. Salvador Alvarado, for handling the entire crop. The sugar operators are to erect \$1,000,000 manufacturing plant here for handling their raw product, and Mexican capital is to establish a transportation line running ships between New Orleans and Mexican gulf ports.

The entire sugar crop of the states of Yucatan and Campeche, with an annual valuation of approximately \$125,000,000 would be handled through New Orleans. The Regulatora de Comercio de Honduras, an organization of sugar growers, operating under the supervision of the Yucatan state government, will establish the manufacturing plant here to handle a portion of the raw product. The loan contract was signed by Sen. Wexler and Lynn H. Jenkins, president of the interstate bank and trust company of representing the syndicate.

Dr. Victor A. Hendon and Julio Hendon, representing the syndicate, with assistance of Gen. Salvador Alvarado, governor of Yucatan, who advised with them by cable, made arrangements for handling the sugar crop.

Sisal valued at \$15,000,000 would be kept in storage here in the new state-owned warehouses, and ship terminals at all times.

The \$10,000,000 in gold will be paid out in exchange for warehouse certificates on sisal stored here.

CLAIMS LONDON DEFENCES AGAINST ZEPPELINS WEAK

London, Eng., Oct. 21.—London's defenses against German air raids are defective, according to Baron Sydenham, for many years in the royal engineers, in an address in the house of lords. He said:

"My impression of the shooting in the last raid was that much of it was at random, the shells bursting nowhere near our targets. The new using these guns should come from the trenches, where they have been able to get actual practice."

The suggestion that airplanes should cruise over London nightly when Zeppelins are expected is useless. We already have our own live Zeppelins and we are great many airplanes by sending them up on wild goose chases in the dark. I am strongly opposed to reprisals.

The Earl of Portsmouth said it was only a miracle that at the time of the last raid there was no fearful catastrophe in a certain place of entertainment.

at the end of the struggle than at the beginning, which proves excellent transport arrangements.

"At present a thousand industrial works and factories have been scheduled as controlled establishments and the number of men employed in them is little short of 1,000,000. In addition, 3000 skilled soldiers have been released for munitions work."

GERMAN SUBMARINES SINK

Berlin, Germany, Oct. 21.—A resume of German activities in sinking enemy vessels during the month of September last, according to the Teutonic news agency as follows:

"During September German submarines sank 25 enemy merchant ships of 102,216 tons, two transport ships aggregating 18,949 tons and seven trawlers of 1200 tons. By mines were destroyed six enemy merchant ships of 25,612 tons. Altogether these vessels aggregated 144,977 tons, which is the best proof that the English report that the activity of our submarines has ceased on account of loss is incorrect."

JITNE BUSINESS IS MEXICANIZED

Majority of Nickel Cars Now Being Owned and Driven by Mexicans.

The American influence in the ownership of jitne cars in the public service in El Paso has altered considerably during the past year and the percentage has changed from 66-2-2 percent in favor of the Americans to 90 percent in favor of the Mexicans. The number of Mexican drivers is considerably larger. There are 345 licenses to drive in effect while the record of bonded cars, including those that are now undergoing transfer and temporarily out of the list shows 172. The actual list of bonded cars shows 48 in the hands of Americans, 20 in the hands of the jitne company, and 57 owned by Mexicans.

It cannot be said that the jitne service is on the decline. There have been constant changes in the ranks, but a constant increase in the number of cars that are being used. The service began almost a year ago with nine cars. The announcement of the formation of a jitne company put 20 more cars into the field. From then on there was a accumulation of from four to five cars.

At the city hall, where the licenses are issued and the bonds for the cars are kept on record, the department officers stated that, while the drivers of the cars may be transient in character, the owners with few exceptions are permanent residents of El Paso. The cars that have remained in the service are those that have been owned outright. The cars to have been those bought on installment basis, the monthly installment eating all the profits.

Forty Arrested.

Recently at a Monday session of the corporation court there were 40 drivers of jitne buses arrested on various charges. The chief offense was overdriving cars stopping out in the street instead of near the curb, driving on the wrong side of the street, or ignoring some traffic signal. A survey of the 40 offenders disclosed two American drivers out of the 40.

An increasing number of street accidents and the registering of several deaths as the result of careless driving on the part of jitne drivers has led to the belief that the Mexican driver is less careful of the rights of the pedestrian than the American. Not a day passes but what there are from five to ten cases in the corporation court for violations of the traffic ordinance and a number of cases the judge has authorized the revocation of the license.

Mexicans Work for Less.

One of the explanations for the absorption of the jitne business by the Mexicans of El Paso is that the Mexican can live from his daily revenue of

VESSEL CRASHES ON PIER; 40 HURT

Worst Fog of the Year in New York Harbor Takes Toll of Many People.

New York, Oct. 21.—Forty men and women were injured today when the Lackawanna, ferryboat No. 11 and 9 crashed into the Barrow street pier during a fog and hurled a number of passengers under the hoofs of a dozen horses which were on the boat. Six of the injured were rushed to hospitals and others were treated by ambulance surgeons.

The crash occurred during what has been described as the worst fog of the year, which settled down during the night and seriously interfered with harbor and river traffic.

Nickels better than the American who looks upon a day's wages as 42 and more. Another explanation is that many Mexican families who are refugees from Mexico have only a few hundred dollars are disposed to look upon the running of a jitne car as a better source of revenue than an investment in any bank or realty security. Not only do they make the investment, but either operate or directly supervise the operation of the car.

An aggravating problem which faces the corporation judge in dealing with jitne offenders is that, while all have taken the examination as chauffeurs, few of them are familiar with the traffic regulations. Numerous drivers have been presented before a driver has had to be fined upon three or four different counts before they have learned the art of skilfully driving.

ROAD OFFICIALS REELECT LESTER

Mesilla Park Man Again Heads Highway Association; \$1,250,000 for Roads.

Santa Fe, N. M., Oct. 21.—Southern New Mexico was again recognized as the road roads center of the state when Francis E. Lester, of Mesilla Park, was again elected president of the State Highway Officials association. Mr. Lester's work as the head of the association during the past year and the untiring efforts of the Mesilla Park man made him the logical choice for the head of the association another year. Fidel Ortiz, of Las Vegas, was named vice president, and W. M. Atkinson, of Roswell, treasurer. Santa Fe was selected for the next meeting place of the association.

\$1,250,000 For Roads. State engineer James A. French told the association that there would be \$1,250,000 available for road roads in New Mexico during the next year and he told of the plan for having 1000 men at work by January first with teams, scrapers, rollers and crushers to make every road in the state passable. The state engineer was given an ovation when he appeared before the commission as his government experience and his ability as a road engineer, plus his enthusiasm in the cause of the good roads movement in New Mexico, had been largely responsible for the results obtained by the state during the past year.

Governor For Efficiency. Gov. W. C. McDonald backed up the state engineer in all of his statements and declared that he would see that there was a closer cooperation between the county road boards and the state engineer's office in order that the plan of a general highway scheme for the state would be worked out to the best advantage of the entire state. The employment of efficient men on the road work was declared by the governor to be one of the most important points in the work of obtaining better roads for poor workmen could not buy good roads, regardless of the efforts of the road boards and engineers.

Billion for Roads

U. S. senator Thomas B. Catton said that the bill now before congress appropriating \$100,000,000 for federal aid for roads was almost sure to pass at this time of session and that this would give New Mexico \$25,000,000 for the improvement of highways. State superintendent of schools Alvin White declared that there were 15,000 children in the state who could not attend school because of the roads.

Resolutions were adopted before the final adjournment providing for the placing of road signs on all roads in the state.
